

GigaContent

Book your connection in an instant

GigaBooking is the perfect solution when you need full flexibility and control of your connections for the production of live TV for broadcast or web. With GigaBooking you can quickly reserve the needed GigaContent contribution connections online, and you can do this at all hours of the day, seven days a week.

GigaBooking is an online booking tool accessible to all GigaContent's clients. You define your own connections and reserve your own transmission time slot via the simple user interface, which only takes a couple of minutes to learn how to use. And in case of doubt, you are welcome to contact our technical staff.

You can also extend, move, or cancel your transmission time slots on GigaBooking. And - more than anything - you can make sure that your most critical connections are available by booking them plenty of time in advance. With GigaBooking you minimize your technical production risks, and you get the maximum benefit from your GigaContent services.

Why choose GigaBooking?

- Book your own transmission time slots to and from all points-of-events in an instant
- Full control over own connections to all broadcasters, points-of-events, & production companies
- Book connections to and from foreign destinations with GigaXchange
- Access via your browser and Internet connection
- Manage and plan your future connections online
